AQUAVIA SPA

We Design Sensations

design

At Aquavia, we believe that **well-being is in the details.**

From **Barcelona**, we design spas that integrate seamlessly into every space, transforming it into a unique experience.

We have our own in-house design team and collaborate with renowned designers and prestigious studios that contribute to the creation of our products.

commitment
to aesthetics, innovation, and comfort,

seen, but also lived and felt.

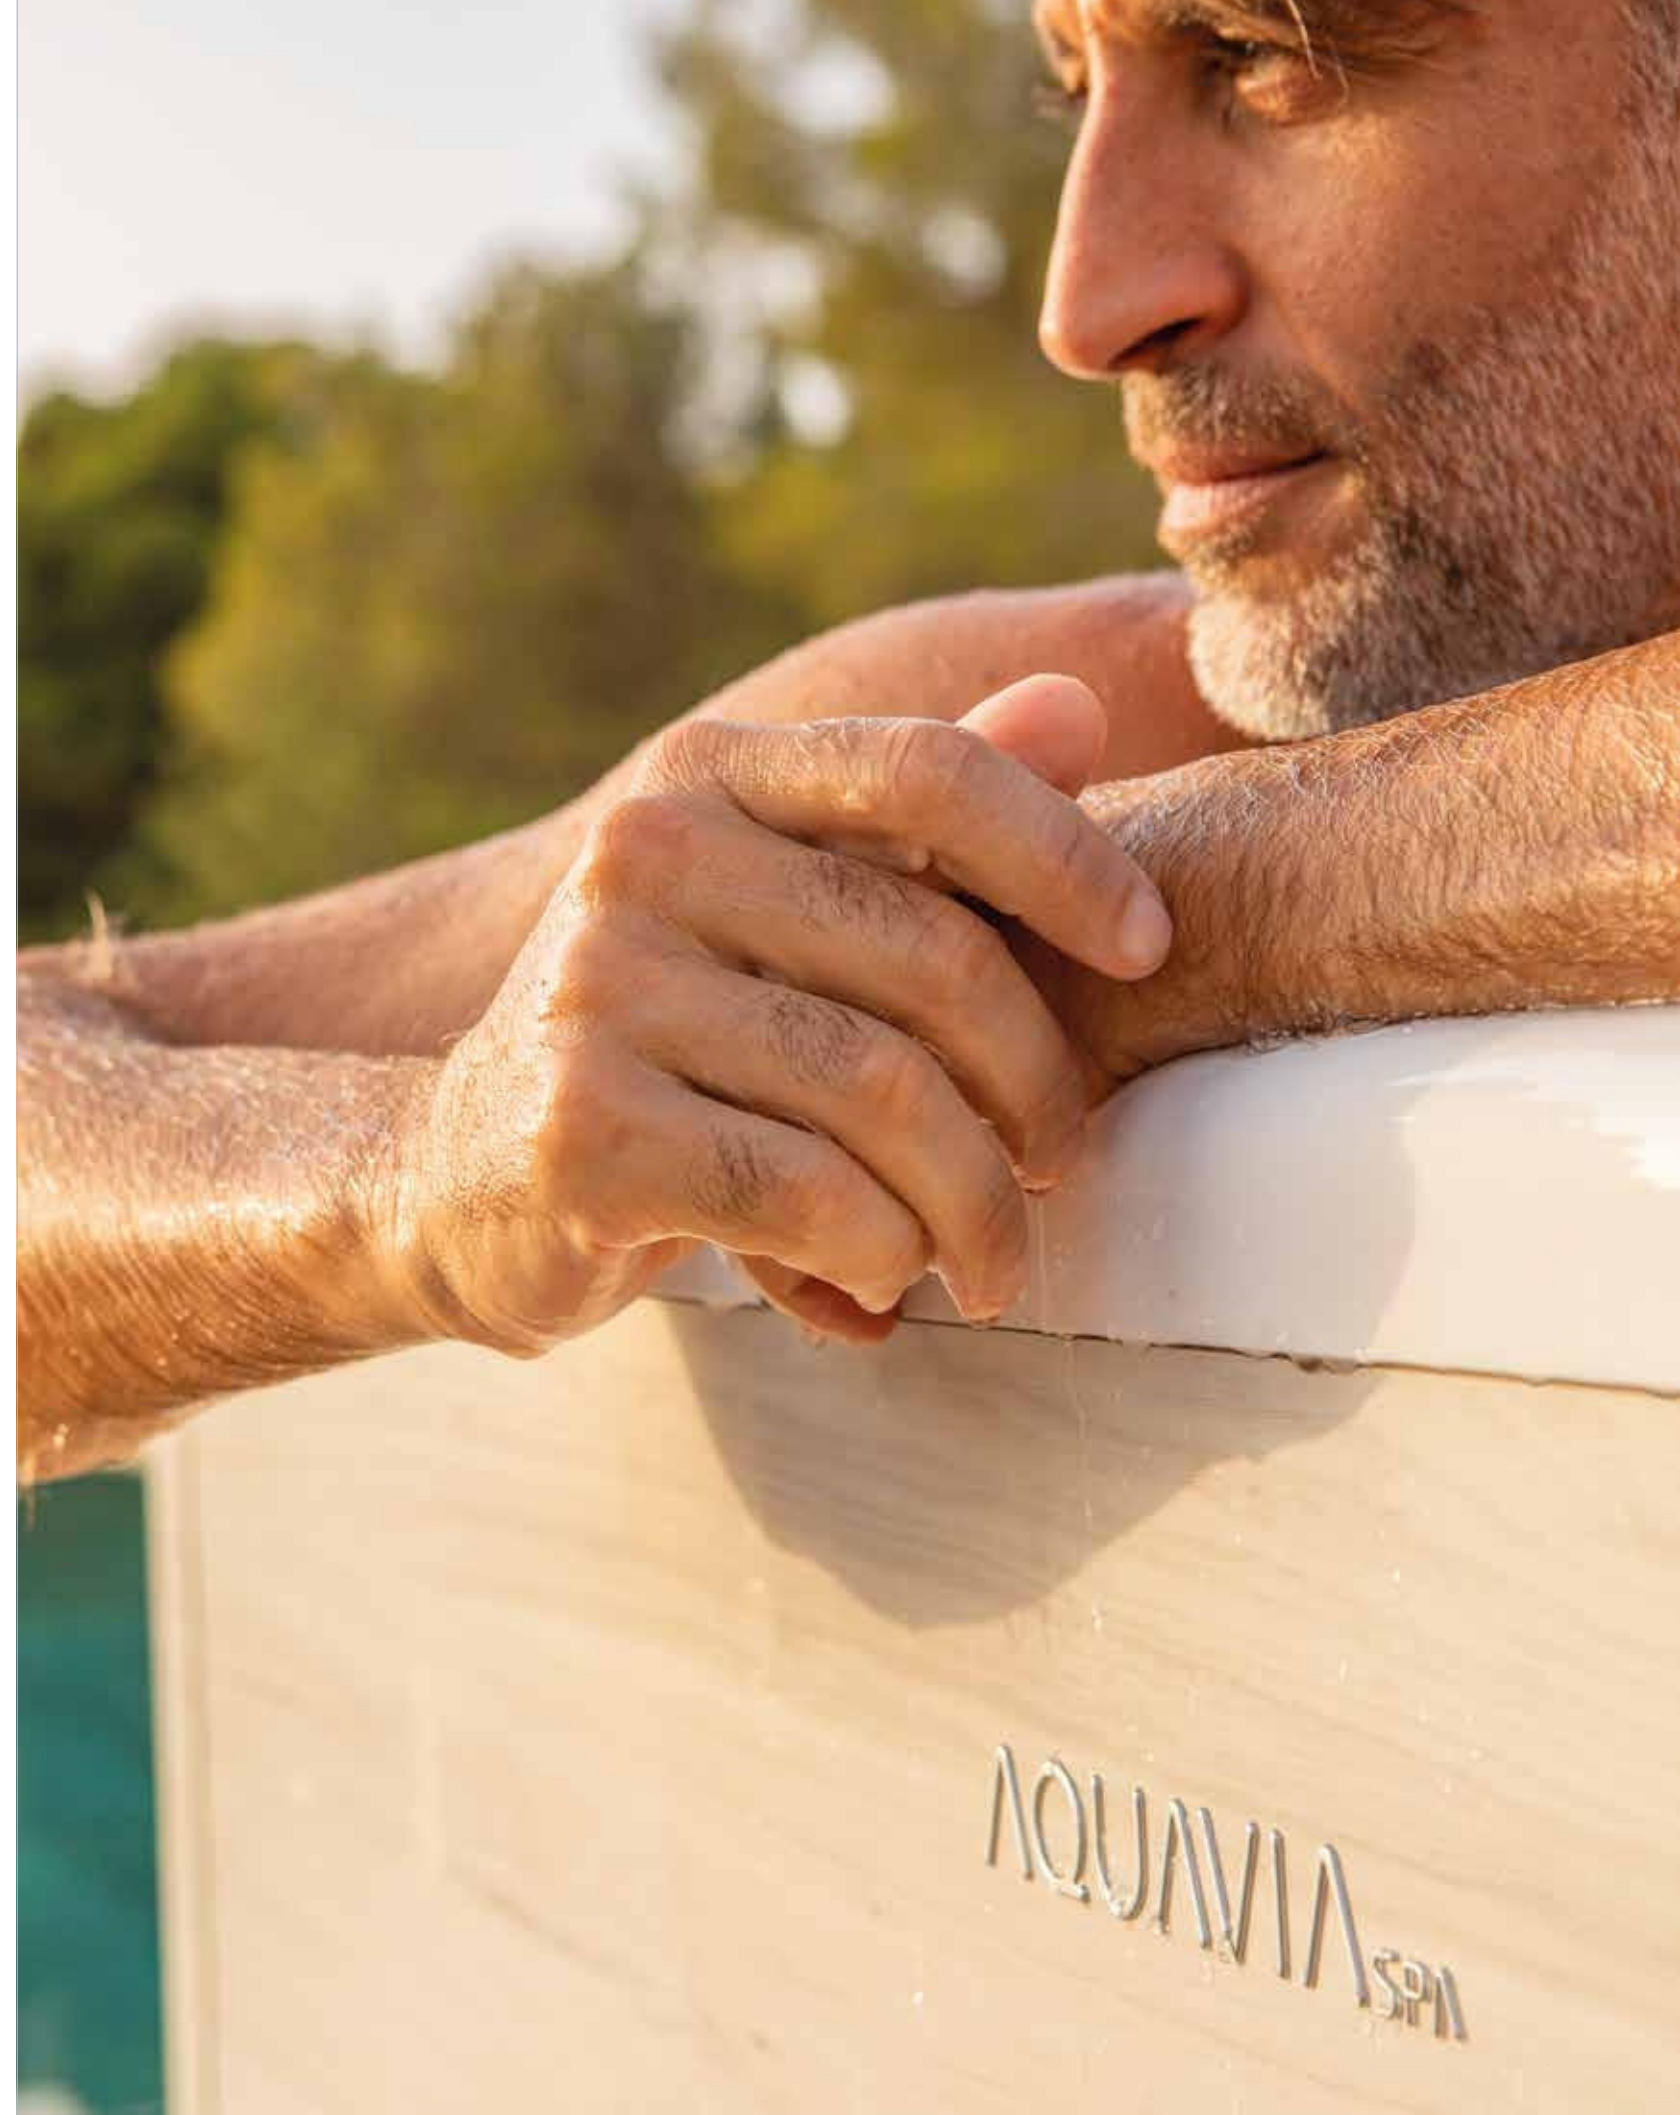

At Mergulho Salgado, we have perfected every detail to manufacture spas and swimspas that withstand the test of time.

Comfort starts with what is not seen:

materials designed to last.

We back it up with **industry-leading** warranties:

- ☐ years on the **structure**
- ☐ years on **acrylic**
- ☐ years on **components**

Our Hydrotherapy

Your well-being goes beyond comfort; it is an experience that renews both body and mind.

We combine three technologies to care for every part of you:

Water Pressure Massage

Works in depth, relieves tension, and revitalizes muscles.

Air Massage

Gently envelops the body, stimulates circulation, and melts away stress.

Premium Blue Wave System Massage

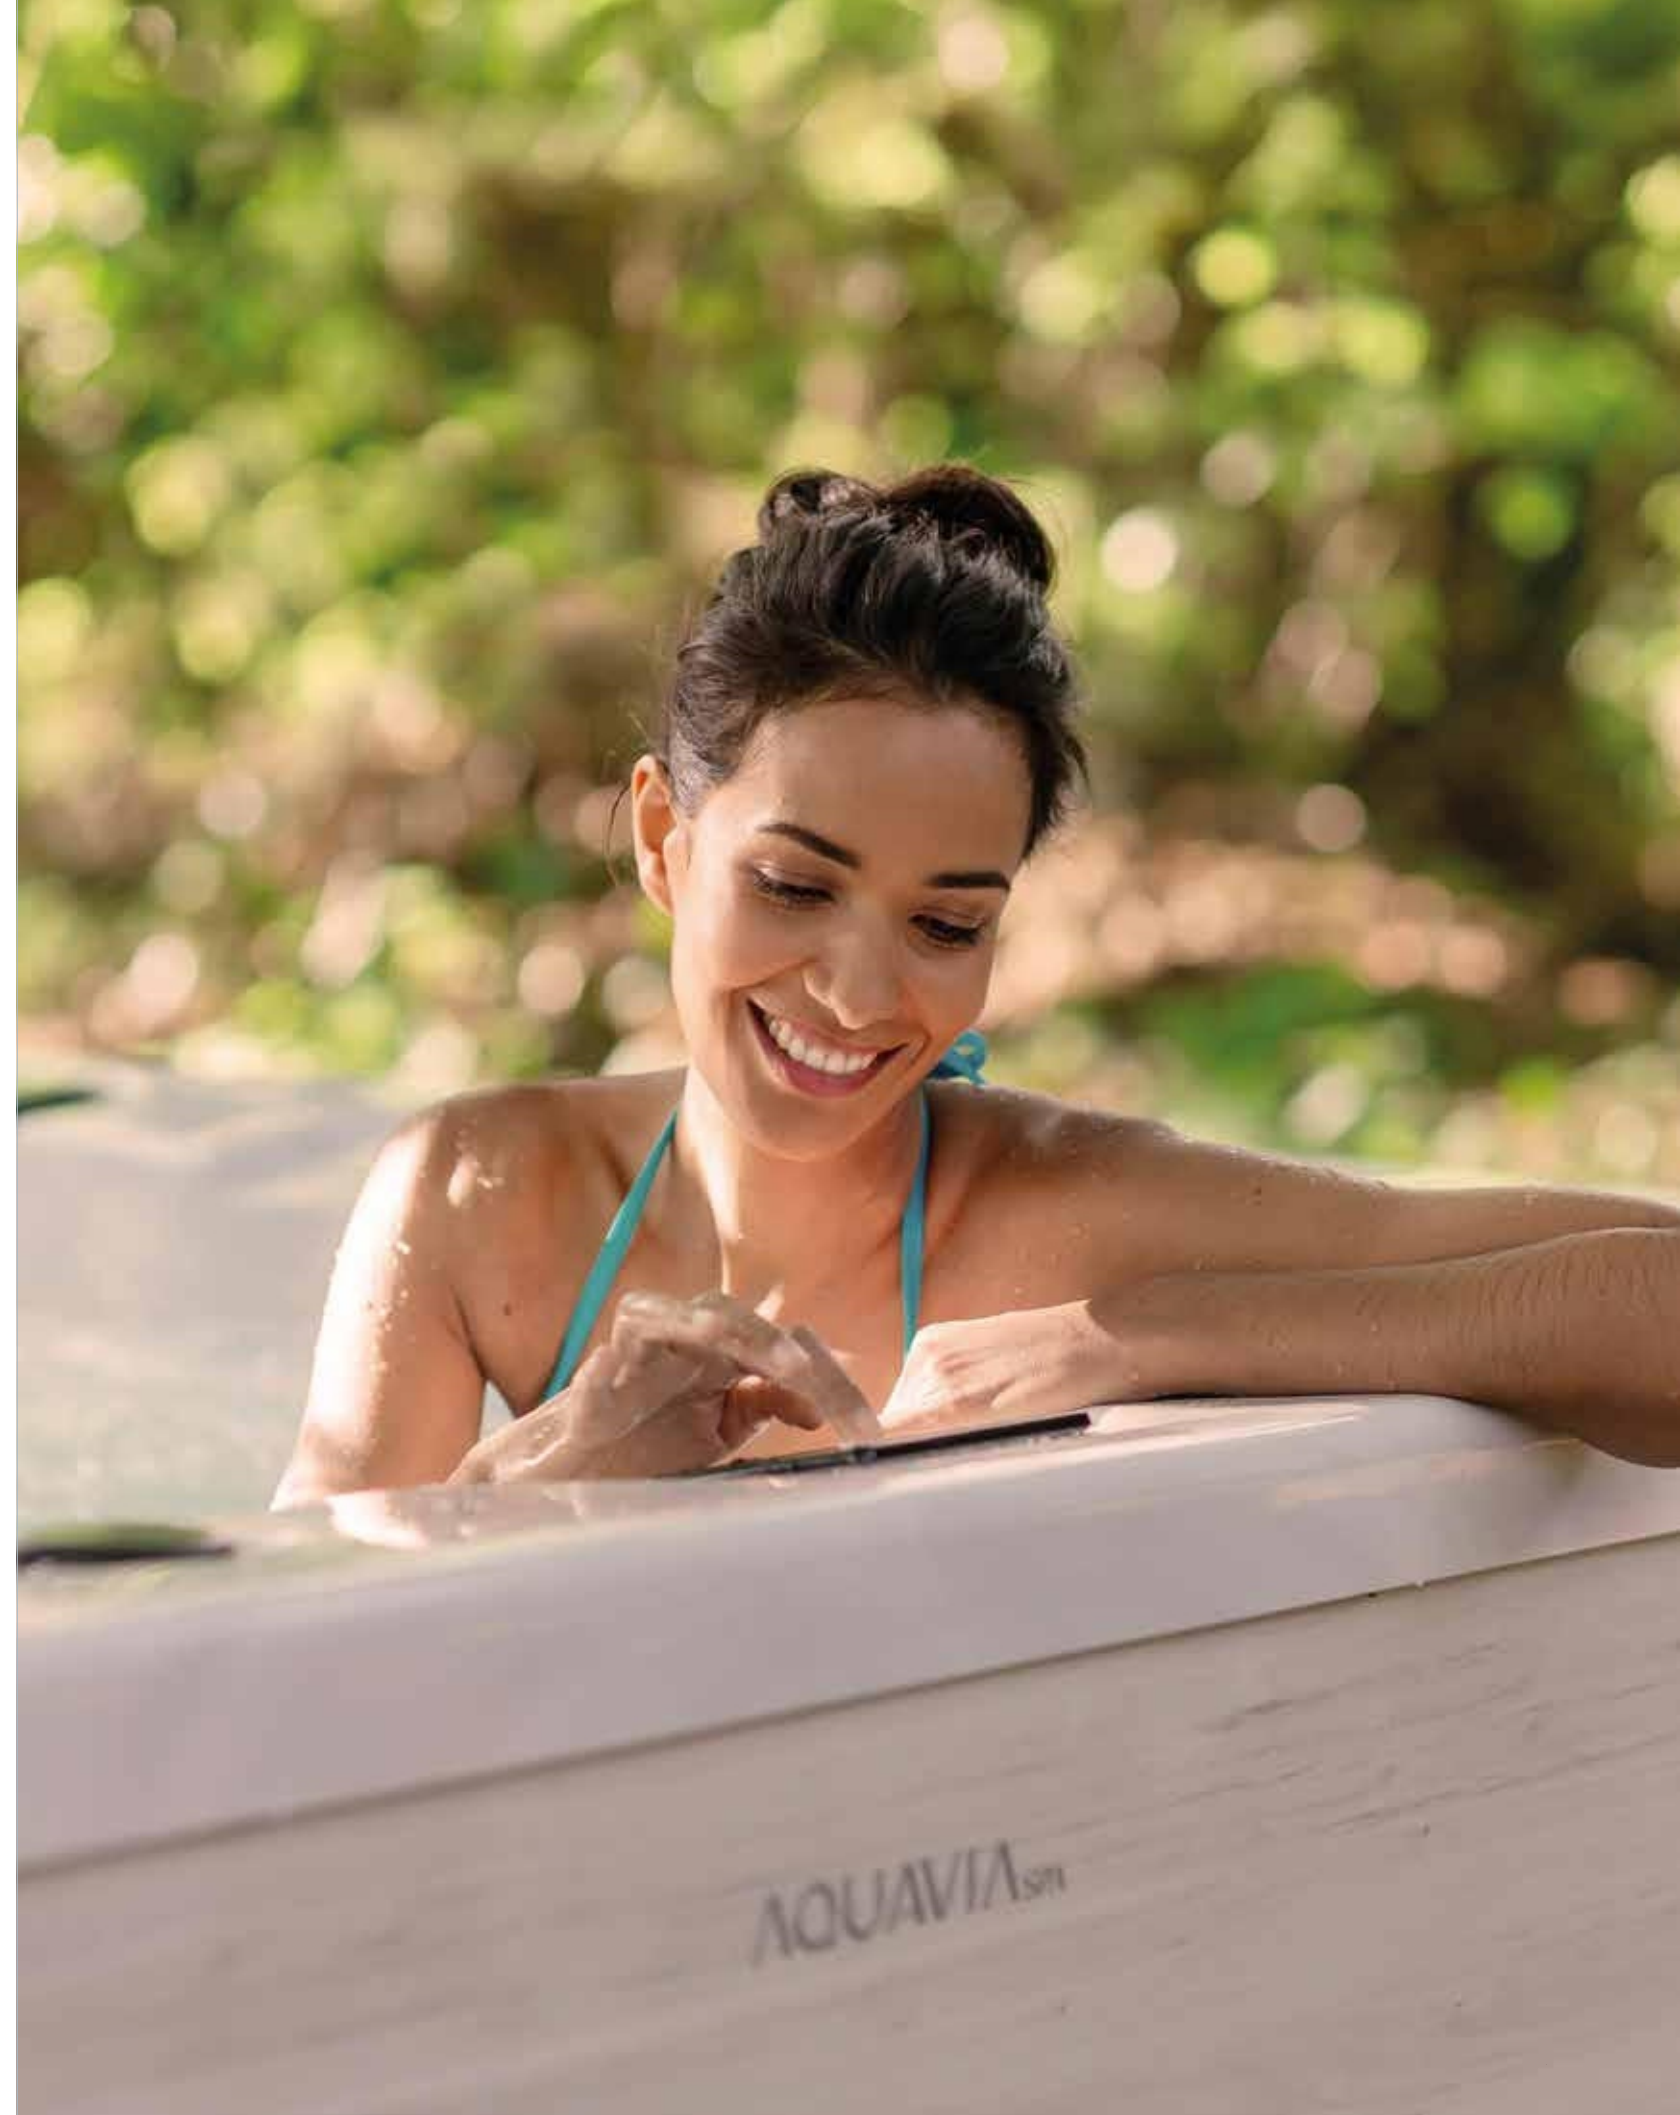

A perfect fusion of air and water that embraces, restores, and regenerates from within.

Designing with **awareness** is part of our philosophy. Our spas are born from a sincere commitment, respecting the planet without compromising your comfort.

Thermal insulation, included in all our models, maintains the temperature from base to cover, saving energy

Additionally, two exclusive systems work to optimize **energy consumption**,

We believe in **responsible comfort**, respecting the environment without

experience

versatile solutions that integrate naturally into any environment.

No two spas are the same, nor are there two identical ways to enjoy them. Our collections encompass multiple styles, functionalities, and

Flexibility and attention to detail ensure that every Aquavia spa retains its essence: design, quality, and a **personalized experience**.

You choose how you want to enjoy it. We make it happen.
