TRADITION AND MODERNITY IN HARMONY

The **EMBER Barrel** is an outdoor sauna that combines tradition and modernity, ideal for an authentic and immersive experience.

Made from ThermoWood® for exceptional durability, it stands out with its elegant black finish and rear **half-moon glass** offering a panoramic view. Its spacious interior includes two deep, **face-to-face benches**, perfect for moments of relaxation. Depending on your preference, you can install either an electric or a wood stove.

Enjoy the view

LED strip

TERRACE:

Enjoy a relaxing space to take a break during your wellness sessions.

FOR EVEN MORE AUTHENTICITY

Option to install a wood stove.
This installation requires a cutout on the upper part of the sauna.

Compatible wood stove: Harvia

? FOCUS ON THERMOWOOD® WOOD

ThermoWood® is wood treated at high temperature, offering durability, resistance, and dimensional stability. This **natural process without chemical products** reduces its moisture content and protects it from climatic variations, **humidity, and insects**. Ideal for outdoor use, it combines a **warm aesthetic and longevity**, perfect for high-end saunas.
